

## APPENDIX A

(Amendments to the Claims)

The rewritten claims were revised as follows:

21. (Once Amended) [The gangable electrical unit of claim 20,] A gangable electrical unit for positioning an electrical component beside an electrical outlet box comprising: a bracket including a wall structure that defines a front opening; and at least one clip coupled to the wall structure and extending outwardly from the front opening of the wall structure, said clip being configured to grasp a wall of an electrical outlet box, wherein the clip includes a self-centering portion for centering the bracket on an electrical outlet box.
